LOW COST TO CHANGE SEED-WHEAT - PLEASE READ:

When buying new Seed -you save your own! Here's the right way to figure...Take 10 acres, "Leap's Prolific" Seed for instance: 15 bu Seed is needed. Not more! 1½ bu of this highly-graded, extra-stooling wheat is enough per acre. Every grain counts!

Cost of 15 bu "Leap's Prolific" Seed @---\$2.45---\$36.75
 Less value of the cotton bags(included in price)--\$ 2.40
 Actual cost of Seed itself (freight allowed)----\$34.35
 Sell the wheat you would have sown - maybe 22 bu
 (before cleaned) @ say \$1.30, and receive cash----\$28.60
NET COST FOR YOUR 10 ACRES OF NEW SEED-----\$ 5.75

A yield of just 1 extra bu. will over-pay your investment. But you won't stop with 1 bu! You'll have 50, 80, maybe 120 extra bushels next harvest! Thousands of others have gained by such margins - why won't you? Sowing such Seed is going to pay you!
